

KENYA

GLOBAL CONCERN, INC.

July 2023

WHO

Adults, groups of college students, and friends can join us.

WHAT

Global Concern, Inc. ("GCI") is a non-profit organization with a desire to attack root causes of problems rather than symptoms alone, and to do so in ways that prevent unhealthy long-term dependency. Working in partnerships with community leaders, GCI seeks to work in ways that will allow the community to "own" the finished project, freeing GCI up to help even more communities. For more information about GCI, please visit its website at www.global-concern.com.

WHERE

GCI's current focus is on the people of the Chalbi Desert Region of Northern Kenya. GCI's goal is sustainable community development in the most under-resourced communities of this region. Community development is not a short-term process where a single project is done, but a partnership with a community (tribal village, small town) to create a plan that will bring lasting change.

HOW

This team will be continuing GCI's work on various water and other community projects in the region.
